1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

 Claims 1- 13, drawn to method and system of expose the quantity of calculate, classified in class 324, subclass 753.

II. Claims 14 - 20, drawn to method manufacturing semiconductor device, classified in class 438, subclass 17.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the invention I directed to the method and system of expose quantity to calculate the semiconductor device, on the other hand the invention II directs to the method of manufacturing its.

A telephone call was made to Mr Richard V. Burgulian on 9/28/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
